**APPLICANTS' SUMMARY OF SUBSTANCE OF INTERVIEW**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicants' representatives, Adam Neff and Philip Owens, conducted an interview in connection with the above-referenced matter with Examiner Tso at the United States Patent and Trademark Office on April 28, 2006. Applicants thank Examiner Tso for the courtesies extended to the representatives.

In the interview, Applicants' representatives described the invention subject to the application, explaining that the claimed invention was not a conventional accumulator or capacitor, but was instead a new method for generating electric power. Examiner Tso indicated that the claimed invention appears to be patentably distinct over the applied prior art

(U.S. Patent No. 6,294,893 B1 to de Abreu). Examiner Tso indicated that he would conduct a further search of the prior art as part of the examination of this application.

Respectfully submitted,
